# HIGH-PERFORMANCE SCRAPER FOR CONVEYOR BELTS

**acman**<sup>®</sup> / RDS

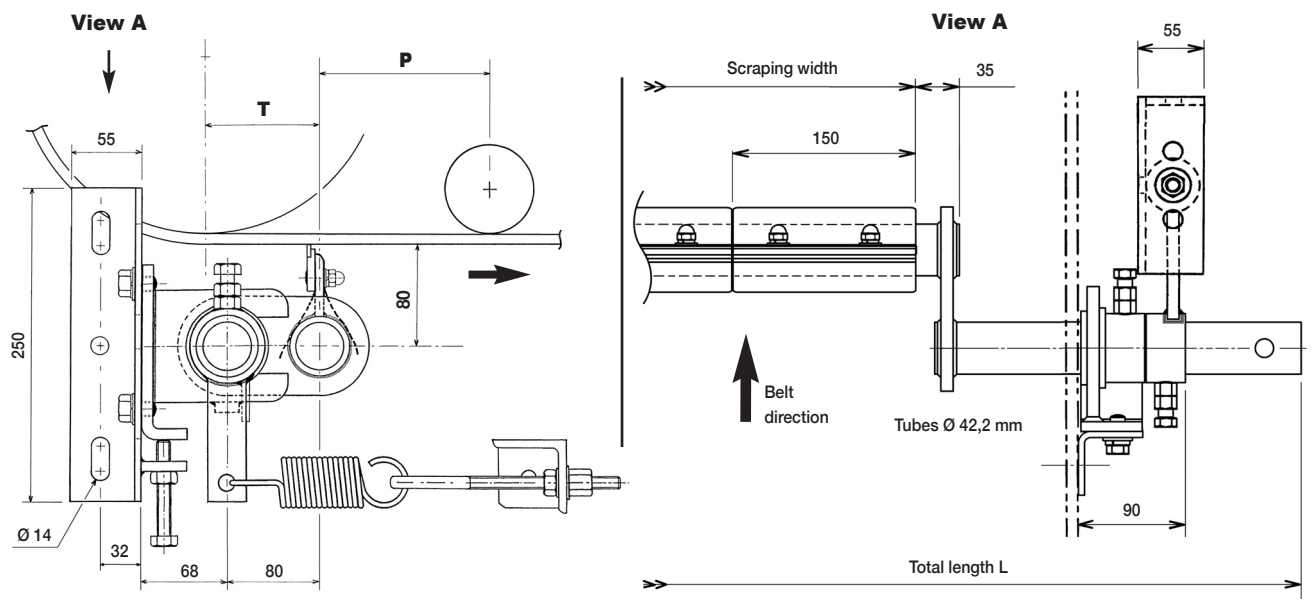

The **acman® / RDS Scraper** was created to clean white PVC or rubber conveyor belts in sugar refineries and the salt industry.

This product meets the stringent requirements of the food industry with a set of 316 stainless steel components and BELLE BANNE 440 hardened stainless steel blades.

The **acman® / RDS Scraper** is designed for single-direction belts, but a reversible version can also be supplied.

A pressure roller or equivalent adaptation is allows to stabilise the belt for long-lasting efficiency.

## STANDARD PRODUCTION RANGE

The mounting brackets can be installed towards the back.

REFERENCES	STOCK	BELT WIDTH	SCRAPING WIDTH	N° OF BLADES	PRESSURE SYSTEM	L	WEIGHT
